

When Pascal James Imperato, MD, assumed the editorship of the New York State Department of Health of qualified laboratories from HIV testing of the New York State Journal of Medicine in 1982, the acquired immunodeficiency syndrome (AIDS) epidemic Protection of health care workers Responsibilities of physicians and other health care workers in the United States was already SIX years old. During the time of his editorship, two thematic issues of the workers Journal have been devoted to AIDS. In addition, a large number of original communications have been regularly published on the subject. This volume brings together The Symposium on AIDS in Washington, DC, had important articles published on AIDS in the Journal been so successful that the MSSNY, under the auspices of during 1987 and 1988. . . the task force and the Division of Governmental Affairs, In the early years of the epidemic the Medical Society of held two informational symposia for state senators and the State of New York (MSSNY) was aware that it had a assemblymen and their staffs in Albany, New York. These responsibility to both the profession and the public to add were presented in February 1988 and March 1989. Through its efforts to those already mobilized in the attempt to effort has convinced the MSSNY that It has given legislators understand and control this tragic disease. Early on, the tors a better understanding of the overall AIDS problem.
