

Sophia thought that she had it all when she married her daughter's dad and moved into their own home. She had known him for years and they had spent many nights together in their youths, as they partied and drank the night away, but with the responsibility of a new baby weighing on their minds they find their relationship put under strain. When Sophia finds herself waiting at home for him to come home from the pub yet again, her temper flairs and she tells him that it's about time that he steps up. What she doesn't expect is what happens next. What she doesn't expect is to find herself with her baby in her arms, as she runs through the night in the desperate attempt at escape. That's the night that everything changes, but things don't start getting better until one night when a handsome cowboy walks into the bar where Sophia is working. That's when everything starts to turn around for Sophia and that's also when she find herself in a position where she could lose everything that she has ever loved. **WARNING:** This ebook contains mature themes and language.
